### **Recommendation Letter for Victor Marincus**

To Whom It May Concern:

I am glad to have this opportunity to recommend Victor Marincus to your company.  
Mr. Marincus has worked as an Engineer at Energobit for six years, and as his manager, I can attest to his diligence and capability to set goals and achieve them.

Myself and the engineering team occasionally contact the Schneider Electric EMS Global Support team for resolution of issues encountered with the ION, PowerLogic, SPM and PME product suite. Victor Marincus has been answering these support cases for a number of years now. He has a good technical understanding and eager to try out fixes to the problems encountered. He helps us a lot at Transelectrica system with the problems appeared to ION EEM and ION Enterprise software.

He is a pleasure to deal with and from a costumer point of view, we were lucky if Mr. Marincus was the engineer assigned to our support case.

Sincerely,

Mihai Sarb  
Director of Power Quality Department  
ENERGOBIT S.A.
